How We Assess

Types of Tax Rate Adjustments

▶ House Bill 920

- ▶ Enacted by legislators in 1976
- ▶ Prevents school districts from collecting more money due to valuation increases from reappraisals or triennial updates than was approved by voters
- ▶ Reduces the millage rate on voted levies so that the levy only generates the amount of money approved by voters.

How We Assess

Types of Tax Rate Adjustments

▶ 20 Mill Floor

- ▶ Enacted by legislators in 1977
- ▶ Prevents the total tax rate for school district general fund levies from being reduced by House Bill 920 below 20 mills
- ▶ Adjusts the millage rate on school district general fund levies upward to maintain the 20 mill floor

How We Assess

Types of Tax Rate Adjustments

► Inside Millage

- Ohio law allows 10 mills of inside millage which can be levied without voter approval and is shared by the public schools and government entities in each district
